TITLE : PEN INPUT INFORMATION DEVICE

ABSTRACT : PURPOSE: To provide a pen input information device the pen housing part of which is located so as to easily input and output a pen and which is inexpensive in terms of a cost and capable of surely preventing the pen from fall-off.

CONSTITUTION: A pen stopper 3 is a little longer than the pen and fitted or stuck to an information main body 1 so as to cover nearly 90% of a housing groove 4. The pen stopper 3 is made of elastic material such as rubber and constitute the pen housing part 6 with the U-shaped housing groove 4 formed on the surface of the information device main body 1 to fix the pen 5 to the information main body 1 by the elasticity of the pen stopper 3.
